

MOHAMMED EZZAHAR

Meknes, Morocco · +212 609-233-284 · m.ezzahar@edu.umi.ac.ma · linkedin.com/in/mohammedezzahar · github.com/mohammedezzahar

EDUCATION

Moulay Ismail University · Faculty of Economics & Finance

Meknes, Morocco · Expected Jun 2026

BSc Accounting, Finance & Fiscality · Honours Track · Major de promotion

Advanced coursework: Financial Modelling, Machine Learning, Econometrics, Database Systems, Treasury Management, Tax Law & Public Finance

PROFESSIONAL EXPERIENCE

ALIFFA Startup · Co-Founder, CFO & CTO

Meknes | Jan 2023 – Present

- National Finalist, Injaz Al-Maghrib 2023 (top 5% of 400+ teams) — sole team from Meknes to reach the national stage; authored full business plan and delivered investor pitch to 12-judge expert panel.
- Built integrated 3-statement financial model with 5-scenario analysis; established corporate accounting & tax framework (CIT, VAT) in compliance with Moroccan law.
- Directed product architecture on Microsoft Azure; cut projected operational costs by 18% through infrastructure optimisation. Structured investor reporting package (P&L, balance sheet, cash flow) used in early funding discussions.

SELECTED PROJECTS

Bank Reconciliation Automation Python & SQL pipeline · eliminated 95% of manual entry errors; saved 15 hrs/week.	NLP Text Generation & Sentiment Model BERT-based generation model and semantic embedding pipeline for customer insight extraction.
Corporate Tax Impact Study Modelled CIT impact of free trade zone transition · projected 20% tax saving over 5 years via investment incentives.	Reinforcement Learning Agent RL model for preference-based decision optimisation; applied to dynamic resource allocation; achieved stable convergence within 500 episodes.
Fraud Detection & Recommender System XGBoost fraud classifier + transformer-based multi-modal recommender · PyTorch, scikit-learn.	Distressed Portfolio · Ratio Analysis Liquidity, solvency & capital structure analysis for 8 companies; viability scoring model presented as investment brief.

CERTIFICATIONS

Bloomberg Market Concepts (BMC) Bloomberg · 2024 · Equities, fixed income, FX, economics · standard IB credential	Microsoft Azure AI · TensorFlow Fundamentals Microsoft / edX · Aug 2024 · Neural networks, TensorFlow, Azure ML deployment
IBM Data Science Professional Certificate Coursera / IBM · Aug 2024 · ML, deep learning, SQL, Python	Google Data Analytics Certificate Coursera / Google · Aug 2024 · Data cleaning, visualisation, R, capstone project

SKILLS

Programming	Python (Pandas, NumPy, SciPy, Matplotlib, scikit-learn, TensorFlow, PyTorch) · SQL (PostgreSQL, MySQL) · R · VBA
Analytics	Power BI · Tableau · Plotly / Seaborn · Excel (pivot tables, macros, solver, Power Query) · Sage · SAP
Finance	3-statement modelling · DCF / LBO analysis · Ratio & valuation analysis · Tax planning · Bloomberg Terminal · STATA · EViews
Cloud / Dev	Microsoft Azure · Git / GitHub · Jupyter Notebook
Languages	French (native/bilingual) · English (bilingual) · Arabic (native) · Spanish (advanced) · Portuguese (advanced)

LEADERSHIP & ACTIVITIES

- VP Workshops, University Finance & Economics Club** · Designed and delivered 2 workshops on financial modelling and entrepreneurship; 50+ student attendees per session.
- Open-source contributor** · ML, NLP and finance automation projects published at github.com/mohammedezzahar; actively building public applied finance & data science portfolio.
