

MOHAMMED EZZAHAR

Meknes, Morocco · +212 609-233-284 · m.ezzahar@edu.umi.ac.ma · linkedin.com/in/mohammedezzahar · github.com/mohammedezzahar

EDUCATION

Moulay Ismail University · Faculty of Economics & Finance

eknes, Morocco | Expected Jun 2026

BSc Accounting, Finance & Fiscality · Honours Track

- Coursework: Financial Modeling, Accounting, Management, Marketing, Treasury Management, Machine Learning, Database Systems, Tax Law & Public Finance, Macroeconomic Theory

quantitative methods

PROFESSIONAL EXPERIENCE

ALIFFA Startup · Co-Founder, CFO & CTO

Meknes | Jan 2023 – Present

- National Finalist, Injaz Al-Maghrib 2023** (top 5% of 400+ teams) — authored full business plan; delivered investor pitch to a 12-judge expert panel.
- Built integrated 3-statement financial model with 5-scenario analysis; established corporate accounting & tax framework (CIT, VAT) per Moroccan law.
- Directed product architecture on Azure; cut projected operational costs by 18%. Structured investor-ready reporting package (P&L, balance sheet, cash flow).

SELECTED PROJECTS

Bank Reconciliation Automation

Python & SQL pipeline · eliminated 95% of manual entry errors; saved 15 hrs/week of accounting work.

Fraud Detection & Recommender System

XGBoost fraud classifier + transformer-based multi-modal recommender system · PyTorch, scikit-learn.

Reinforcement Learning Agent

RL model for preference-based decision optimisation; applied to dynamic resource allocation scenarios.

Corporate Tax Impact Study

Modelled IS impact of free trade zone transition · projected 20% tax saving over 5 years via investment incentives.

NLP Text Generation & Sentiment Model

BERT-based text generation model and semantic embedding pipeline for customer insight extraction.

Distressed Portfolio · Ratio Analysis

Liquidity, solvency & capital structure analysis for 8 companies; viability scoring model presented as investment brief.

CERTIFICATIONS

IBM Data Science Professional Certificate

Coursera / IBM · Aug 2024 · ML, deep learning, SQL, Python (9-course programme)

Microsoft Azure AI · TensorFlow Fundamentals

Microsoft / edX · Aug 2024 · Neural networks, TensorFlow, Azure ML deployment

Google Data Analytics Certificate

Coursera / Google · Aug 2024 · Data cleaning, visualisation, R, capstone project

Bloomberg Market Concepts (BMC)

Bloomberg · 2024 · Equities, fixed income, FX, economics · standard IB credential

SKILLS

Programming

Python (Pandas, NumPy, SciPy, Matplotlib, scikit-learn, TensorFlow, PyTorch) · SQL (PostgreSQL, MySQL) · R · VBA

Analytics

Sage · SAP · Power BI · Tableau · Plotly / Seaborn / Matplotlib · Excel (pivot tables, macros, solver, Power Query)

Finance

3-statement modeling · DCF / LBO analysis · Ratio & valuation analysis · Tax planning · STATA · EViews

Cloud / Dev

Microsoft Azure · Git / GitHub · Microsoft Project · Asana · Jupyter Notebook · Google Colab

Languages

French (native/bilingual) · English (bilingual) · Arabic (native) · Spanish (advanced) · Portuguese (advanced)

LEADERSHIP & ACTIVITIES

- Injaz Al-Maghrib 2023 National Finalist** · only team from Meknes among 400+ ventures to reach the national stage; pitched ALIFFA PetTech SaaS to national investment panel.
- University Finance & Economics Club** · co-organised two workshops on financial modeling and entrepreneurship; 50+ student attendees each session.
- Open-source contributor** · ML, NLP and finance automation projects published at github.com/mohammedezzahar; actively building public applied finance & data science portfolio.
