

# MOHAMMED EZZAHAR

+212 609-233-284 | m.ezzahar@edu.umi.ac.ma | linkedin.com/in/mohammedezzahar | github.com/mohammedezzahar

## EDUCATION

### Université Moulay Ismail — Faculty of Economic Sciences

*Bachelor's Degree (Licence) in Accounting, Finance & Taxation*

Meknès, Morocco

- Coursework: General Accounting, Financial & Accounting Audit, Financial Modeling, Cost Accounting, Corporate Accounting, Advanced Accounting, Algebra, Microeconomics, Databases, Cash Management, Tax Law & Public Finance

## SELECTED PROJECTS

### Bank Reconciliation Automation

Python · SQL

- Built an end-to-end pipeline eliminating 95% of data-entry errors, saving 15 hours per week through automated reconciliation of accounting entries

### Tax Impact Study — Industrial Free Zone

Excel · STATA · EViews

- Modeled corporate income tax (IS) impact for a transition to industrial free-zone status, projecting a 20% cost saving over 5 years through Moroccan tax incentives

### Reinforcement Learning Agent

PyTorch · scikit-learn

- Developed an RL agent for decision optimization applied to resource allocation, achieving stable convergence within 500 episodes

## PROFESSIONAL EXPERIENCE

### ALIFFA (Startup)

Meknès, Morocco

*Co-Founder — Academic Project*

- Led a university entrepreneurial project (PetTech, SaaS) with a student team; National Finalist, Injaz Al-Maghrib 2023 (top 5% of 40+ teams), the only team from Meknès to reach the national final; secured 10,000 MAD in funding; wrote and presented a complete business plan to a jury of 12 investor experts
- Built an integrated 3-statement financial model (P&L, balance sheet, cash flow) with 5 analysis scenarios; developed an accounting and tax framework (corporate tax, VAT) compliant with Moroccan law

## SKILLS

**Programming** Python (Pandas, NumPy, scikit-learn, TensorFlow, PyTorch) · SQL (MySQL) · R · VBA

**Analysis & BI** Power BI · Tableau · Excel (pivot tables, macros, solver, Power Query) · Sage · SAP

**Finance** 3-Statement Modeling · Ratio Analysis & Valuation · STATA · EViews

**Cloud / Dev** Git / GitHub · Jupyter Notebook

**Finance & Audit** Financial Modeling · Tax Planning (Morocco) · Audit Frameworks · Tax Optimization

**AI & Strategy** Critical Thinking · Geopolitical Analysis · Strategic Communication

**Languages** French (advanced) · English (advanced) · Arabic (native) · Spanish (beginner) · Portuguese (beginner)

## LEADERSHIP & ACTIVITIES

### University Finance & Economics Club — Workshop Lead

Université Moulay Ismail

- Designed and led 2 workshops on financial modeling and entrepreneurship, reaching 50+ students per session
- Developed teaching materials (case studies, Excel models) distributed to all club members

### Open-Source Contributor

[github.com/mohammedezzahar](https://github.com/mohammedezzahar)

- Published ML, NLP, and financial-automation projects publicly; shared annotated Jupyter notebooks with the community

## INTERESTS

- Geopolitics & cartography — GeoGuessr, ranked among Morocco's top players (national ranking)
- Reading on international politics and economics
